MISSION

Keeping on as a leading Group in all activities through executing projects and handing them over with the highest quality and cost efficiency.

Badr Mushriq Company is committed to providing high-quality healthcare products and services to our customers at competitive prices. We are dedicated to building long-term relationships with our customers and partners, and we are always looking for new ways to improve our products and services. Our mission is to be the leading healthcare trading company in the Middle East, and we are confident that we can achieve this goal with the hard work and dedication of our team.

Badr Mushriq Company should always be looking for new ways to improve its products and services. This could involve developing new products, improving existing products, or finding new ways to deliver its products and services to customers.

OUR CREDIBILITY

CURRENT PARTNERS

Badr Mushriq has established to be the main distributor / agent in Saudi Arabia for the following partners:

Communication is on with a lot of other international companies to expand our partner list.

**BRAXON**[®]**BRAXON**[®]
FAST

DECO Med With more than 25 years of experience in the medical field, DECO med today expresses its know-how through own design products that surpass by vocation the state of the art and change surgical techniques.

Native[®] is the ultimate ADM expressly designed for breast reconstruction.

The thinnest ADM on the market, 0.6mm thick, because the faster it integrates, the better it is.

Everything in nature can be modelled and shaped. After 15 years of flat matrices that need to be adapted by the surgeon, here's Braxon[®] Fast: the collagen cup already adapted to create the perfect shape for the patients. Still 100% natural. Not chemically altered.

VOLUMATRIX[®]: DECOMed's innovative manufacturing process for a pre-curved ADM matching perfectly the breast implant shape.

NATIVE[®]3D NEVER FALLS FLAT

The “already-projected” membrane to complete the submuscular pocket by giving prompt definition to the inframammary fold and immediate natural posis.

NATIVE[®]3D MOVES THE NEEDLE

The NATIVE[®]3D matrix, produced with the new ADIPOMATRIX[®] technology, promotes the differentiation of ASCs into adipocytes. This fosters the regular healing process leading to the formation of a soft, thin and elastic capsule.

NATIVE[®]3D
Lower Pole Volume

CODE	WIDTH*	HEIGHT*	DEPTH*	THICKNESS
NT714-3D	14 cm	7 cm	7 cm	0,6 mm
NT816-3D	16 cm	8 cm	8 cm	0,6 mm

*nominal measurements that can be extended by the user as needed

The MOZART® System

The original 3D tomosynthesis specimen imaging system from KUBTEC. Identifies surgical margins in 3 axes, empowering surgeons to close with confidence.

The MOZART® Supra System

When you need 3D images of specimens of all sizes, in the Pathology Lab or other departments.

The PICASSO® Plus System

For high-quality 2D imaging for specimens of all sizes in the Pathology Lab or other departments, with proprietary workflow features.

The PICASSO® System

For high-quality 2D imaging in the Operating Room, with proprietary workflow features.

The XPERT® 80 System

High image quality, ease of use, and reliability for routine gross specimen imaging.

The XPERT® 80-L System

All the benefits of The XPERT 80 plus the advantage of imaging larger specimens in pathology.

The XPERT® 40 System

High-resolution specimen X-ray with a toolkit of innovative, best-in-class features designed to help you be more efficient.

The XPERT® 20 System

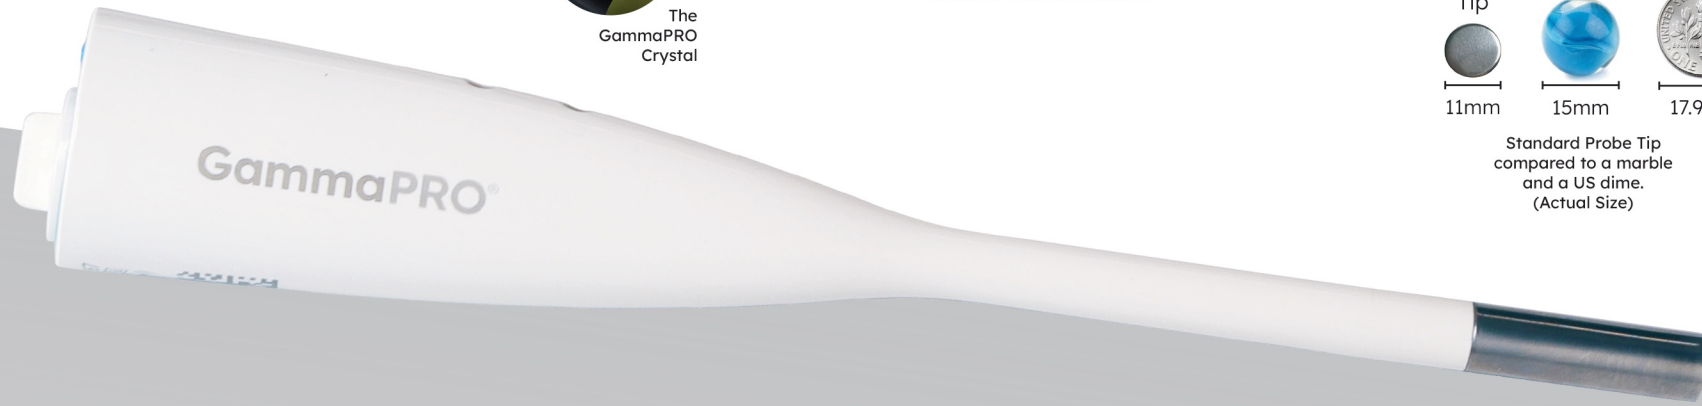

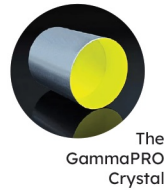

The most compact, most powerful, easy to use core radiography system for the biopsy suite.

GammaPRO[®]

The Precision Probe

A modern, highly innovative gamma probe optimized for today's fast-paced clinical environment.

The unique crystal technology at the heart of GammaPRO is a pivotal advancement in probe design that sets a new standard for sensitivity and reliability. The probe also has a narrow tip, is easy to use, and integrates smoothly into the OR workflow.

Designed for Personalized Precision Surgery

Detection Technology: Accurate & Precise

High-Sensitivity crystal technology and built-in collimation filters background noise.

GammaPRO also improves node detection with low radiotracer doses as well as providing enhanced directionality and sensitivity that ensures reliable results.

Minimally Invasive Tip Design

The probe's titanium tip is very narrow (11 mm diameter), essential in minimally invasive surgeries with smaller incisions into deeper areas.

Standard Probe Tip compared to a marble and a US dime. (Actual Size)

Easy to Use

Ergonomic Design

Light weight, sleek and wireless offering easy maneuverability and portability.

Intuitive Tablet

The rugged touchscreen tablet with custom-designed software and a large display for counts allows for swift navigation.

Functionalities include multiple isotope selection, labeled nodes, maximum cps, and much more.

OR Workflow Integration

Easy Sterilization

Compatible with common sterilization methods and the battery can be left inside.

Long Battery Life

The probe has 15+ hours of battery life and reliable Bluetooth connection and is always ready when needed.

Smart Power Management

The probe automatically enters sleep mode when not in use during surgery and can be reconnected by a simple touch.

Integrated with Imaging Technology

Our exclusive integration with KUBTEC imaging systems, meaning you can conveniently use the software on the imaging system screen, without needing to use the tablet.

ZOLL

ZOLL AEDs support rescuers in performing high-quality CPR compressions through integrated, real-time feedback technology and will deliver a defibrillating shock to a sudden cardiac arrest victim, if needed.

Mobilize™ interactive trauma kits provide a comprehensive set of medical supplies paired with an intuitive instructional app to guide users in assessing, monitoring & managing critical injuries before EMS arrives.

Rescue Ready Services offerings include software, service, maintenance, & training options to help you manage your safety program & ensure that your equipment & responders are always prepared for an emergency.

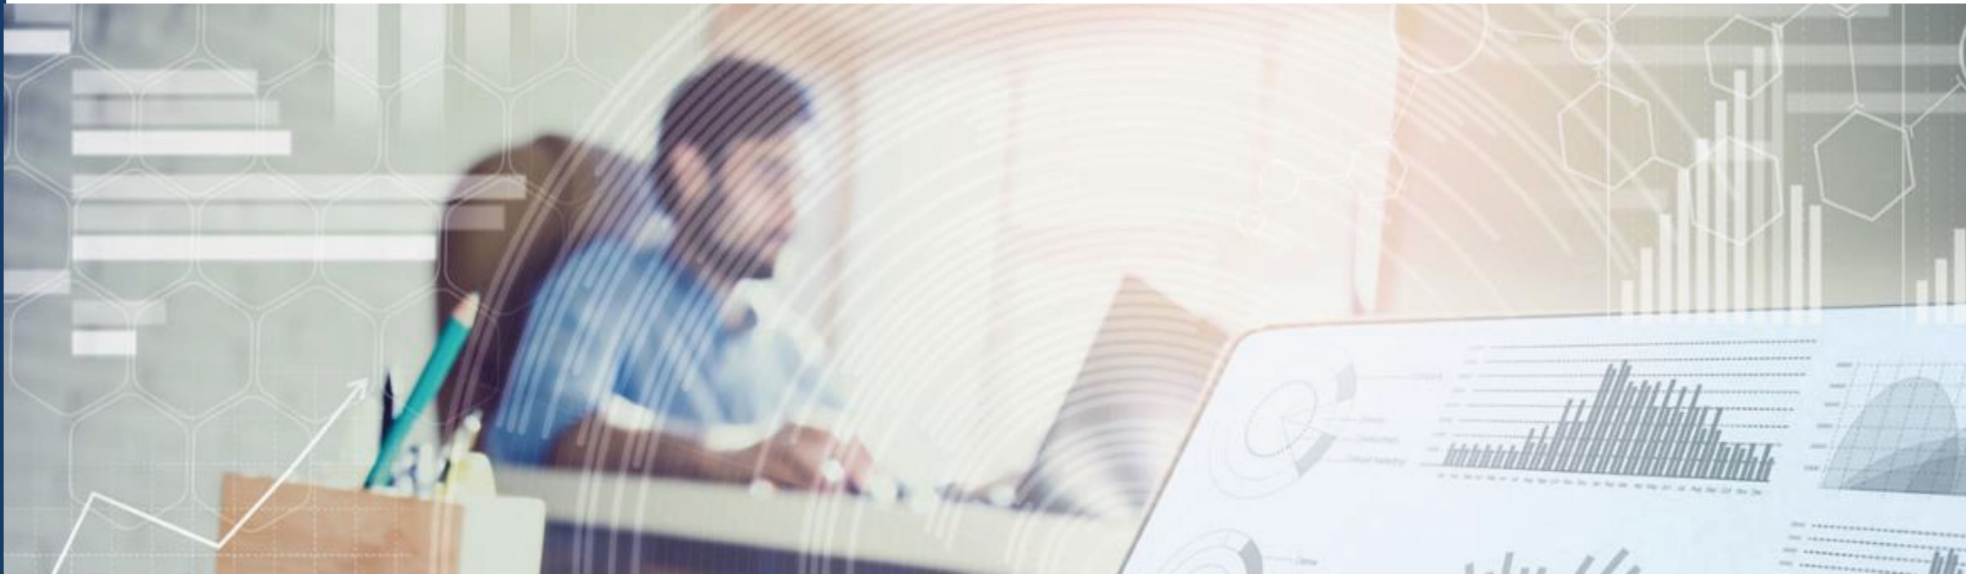

Advocate for safety. Make certain that everyone in your organization, community, school, or workplace is prepared to help save lives with a complete ZOLL ResQSystem™ solution.

NEW INITIATIVES

Continuous business development to satisfy all our market needs:

- To complete an integrated wound healing portfolio.
- To complete an integrated Disinfection and sanitization medical devices portfolio.
- Expansion to healthcare portfolio including food supplements and nutrients.
